As usual, you are the recruiting partner posting on behalf of the client, EnviroVoters. If there is a fee, we pay it and you should have the AMEX info.

If you are unable to post on a site and a contact person is listed under the comments, send a request via email using similar language as provided for previous assignments.

Most of these are sites you’ve posted on/through before so you should not need to reset many passwords and please send me an updated list of all current sites and login info using the initial spreadsheet we sent you.

Let me know if you have questions and please post in the priority order in which they are listed with the development sites first.

You can also reach out to Donna at Community Brands to see which of these sites are hers/she can help with or if she has other suggestions for this fundraising/development role in climate in California.

Thanks!
